MONEY'S DANGEROUS STATE,

Russell Sage Says It Is Too Easy to Be Safe-British War Loan.

REPUBLIC SPECIAL

New York, Aug. 9.—Russell Sage is not satisfied by any means with the present easy money rates.

"There is danger of very heavy losses under present conditions," he said to-day, "because of the kind of collateral banks are now accepting. The banks are compelled to accept it in order to loan their money at all. Money is a drug on the market now. It is a very unsatisfactory condition. With the possibility of falling prices for securities lenders may find themselves insufficiently protected."

Mr. Sage expressed the view that what Mr. Sage expressed the view that what the situation needed is a higher money rate. He said that the success of the British war loan here, which surprised him somewhat, although he was glad to see it, was largely due to the fact that money was in so little demand.

"Eut the Englishmen used good judgcashler of one of the city's most prominent banks said to-day:

"We don't act on that principle. When money is commanding only 1 per cent it is hardly worth while to lend it at all, be-cause of attendant risks. It needs a very

high money rate to tempt us to accept as collateral securities that are not gilt-edged." CHINESE WAR CLOSES MILLS.

The waiters at this restaurant struck on July 1, but for several weeks, until last night, no walking delegates had been placed in front of it to solicit people to keep out of the shop. The walkers were there at luncheon time to-day and kept moving all the time, repeating the words, "Don't patronize this restaurant; he has turned down the working man." The restaurant, however, is owned by a woman.

The cashier said this afternoon that the police had decided that as long as the men kept moving they would not be arrested. One of those men walking there now has not worked in the place since last February, and since then has worked for a laundry.

This afternoon Chief Hayes Issued an order to arrest the boycotters' walkers in front of any restaurant and seeking to prevent customers from patronizing the places. Several restaurants are under the ban of the union waiters, and this was one of the methods decided upon to assist the walters in their fight. Galveston, Tex., Aug. 9.—The Galveston cotton mills will shut down September 1. How long the spinners will be idle can only be determined by trade conditions and solutions of the intricate Chinese problem. It was with great reluctance that the directors determined on this action, but owing to the demoralization of the cotton goods trade, with no prospect of improvement in the immediate future, there was no other course open to them but to suspend operations until there is an improvement in trade conditions and a demand for cotton fabrics.

The pay rolls of the mills last Saturday contained 494 names. The operatives in each of the various departments will be retained until their work is completed, then idleness and suffering until the mills start up again, as their salaries were not sufficient to provide for such an emergency as a shut-down.

C. & A. TO DENVER.

Reported Negotiations to Obtain the Kansas Pacific Branch.

Chicago, Aug. 9.—It is predicted that by the end of the current year the Chicago and Alton Raiway will have a line of its own between this city and Denver. Negotiations are said to be ngw in progress in New York for the purnose of effecting a deai whereby the Union Pacific is to sell to the Alton its Kansas Pacific division, running from Kansas City direct to Denver. The Union Pacific has no particular use for this property, it is not connected east of Denver with its main line, and the latter finds an outlet to Denver via the Julesburg cutoff, which was formerly owned by the Union Pacific, Denver and Gulf, but was acquired about a year ago by the Union Pacific. E. H. Harriman, the head of the syndicate which controls the Chicago and Alton, is also chairman of the Board of Directors of the Union Pacific, and practically directs the affairs of the latter. His interest in the Alton, however, is far greater than in the Union Pacific, the Vanderbilits having a large interest in the latter. It has long been the opinion that it was Mr. Harriman's object to take the Kansas Pacific branch from the Union Pacific and make it a part of the Alton system.

Directors of the Alton and Union Pacific roads will meet in New York on September 1 to formally complete the deal for the absorption of the Kansas City by the Chicago and Alton.

GRAIN RATES. Unsatisfactory Attempt to Adjust
Them at St. Paul Meeting.
St. Paul, Minn., Aug. 9.—Officials of the
Illinois Central, the Milwaukee and St.
Paul, the Northwestern, the Burlington
and Quincy, the Cedar Rapids and Northern and the Omaha rallways met to-day
with officials of the Northern lines to consider grain rates and a cut in section. with officials of the Northern lines to con-sider grain rates and a cut in rates by the Chicago lines as a suggested possibility. The Northern lines were to-day asked by the lines running into Chicago and Mil-waukee, direct from Iowa and Nebraska, warkee, direct from Iowa and Nebraska, to increase the rate on grain. The Illinois Central, the Milwaukee, the Chicago and Northwestern and others complained that the present rates on grain from Iowa, Nebraska and Southern South Dakota points to Minneapolis, St. Paul and Duluth were so low that all the grain was coming this way and that Chicago and Milwaukee were not getting their share. The rates are from 1 to 3 cents in favor of the Twin Cities, therefore the grain is diverted from the Lower Mississippi crossliverted from the Lower Mississippi cross-

It is understood that the Northern lines It is understood that the Northern lines refused. At present the Great Northern, the Minneapolis and St. Louis, the Omaha, and, to some extent the Great Western, are getting the best of the bargain. The haul to Minneapolis is a third shorter than the haul via other lines to Lower Mississippi crossings, and the lines leading to the Twin Cities say they do not see why they should give up a natural advantage.

The Southern lines threatened retaliation, but this was met by the intimation that no matter what rates might be put on, the lines leading north would maintain the ines leading north would maintain the lifterential of from 1 to 3 cents. The meeting broke up without anything being ac complished, excepting, perhaps, to strength en the Northern lines in their attitude.

MOVEMENTS OF TROOPS.

Southern Railway Awarded a Contract at Full Tariff Rates.

The first section of Battery M of the Seventh Artillery, bound for San Francisco, will leave Washington this morning over the Southern Railway for Memphis, thence over the Kansas City, Memphis and Birmingham for Kansas City, and thence via the Missouri Pacific and its connections for Frisco. A most unusual and surprising feature of this movement was that the trunk lines absolutely refused to make a bid for the business, and the Quartermaster, in disgust, solutely refused to make a bid for the busi-ness, and the Quartermaster, in disgust, awarded the contract to the Southern Rail-way at full tariff rates for both passengers and freight. The other sections of this battery are to follow at once. Part of the First Infantry, consisting of 300 men and five officers, left Jersey City Wednesday over the Pennsylvania and will be taken from here over the Missouri Pacific to Fort Leavenworth. They have just rebe taken from here over the Missouri Pacific to Fort Leavenworth. They have just returned from duty in Cuba and will be given a rest before being ordered to China. It is said a part of the First Infantry will take the place of the men now stationed at Jefferson Barracks and the latter will be ordered at once to China.

Bids on the movement of the Second Infantry were made at Cincinnati and the contracts awarded to the Big Four and Pennsylvania companies. The routes have not yet been designated.

PRESIDENTS' AGREEMENT.

Effect of Rate Cutting on Packing-

Representatives of some of the Western railroads admit that the presidents' agreement to maintain freight rates is weakening and in danger of falling to pieces. The chief cause of the trouble is located at Kansas City and St. Paul. While most of the Western railroad officials have made an earnest effort to adhere to the regular tariff, the apparent futility of efforts to make the Kansas City output of packing-house products pay tariff rates keeps the situation unsettled. So long as rates are cut in Kansas City they will be cut in other quarters.

The Western presidents will meet again early in September and special attention will be given to the rate situation.
